8. Additional resources

1. My student's login isn't working.

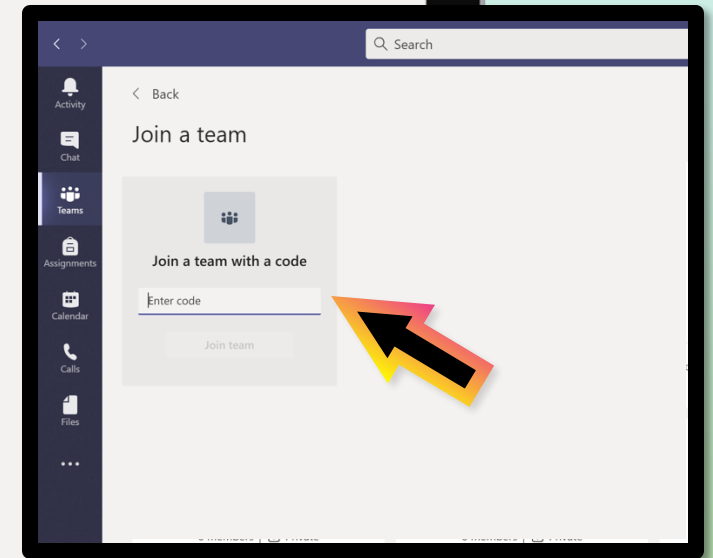

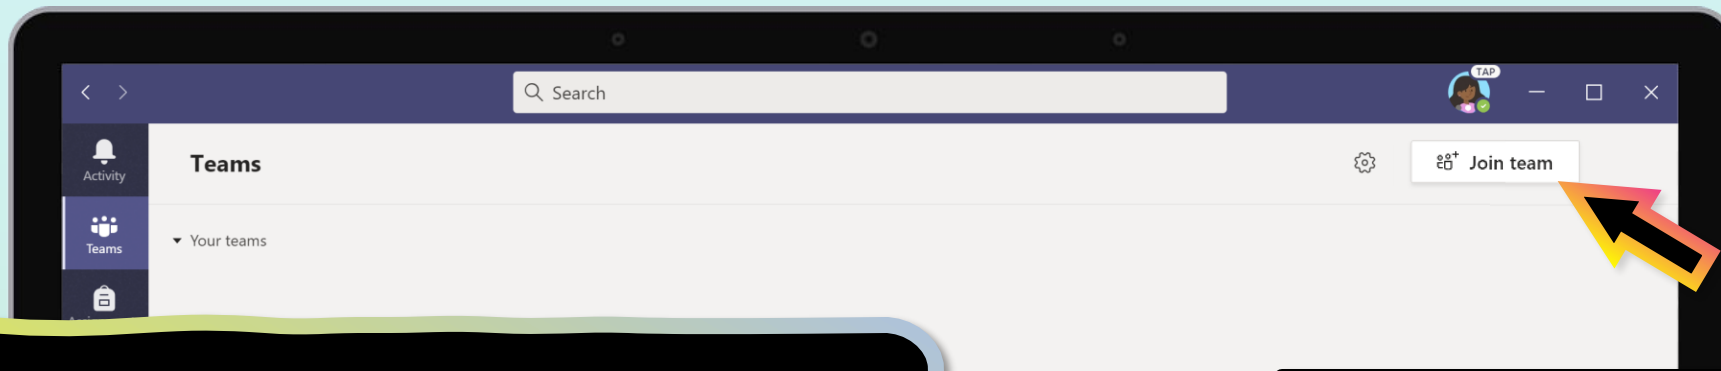

The login information may not be accurate or there might be some other issues with the accounts in your student's school. Contact your student's teacher or school district with questions.

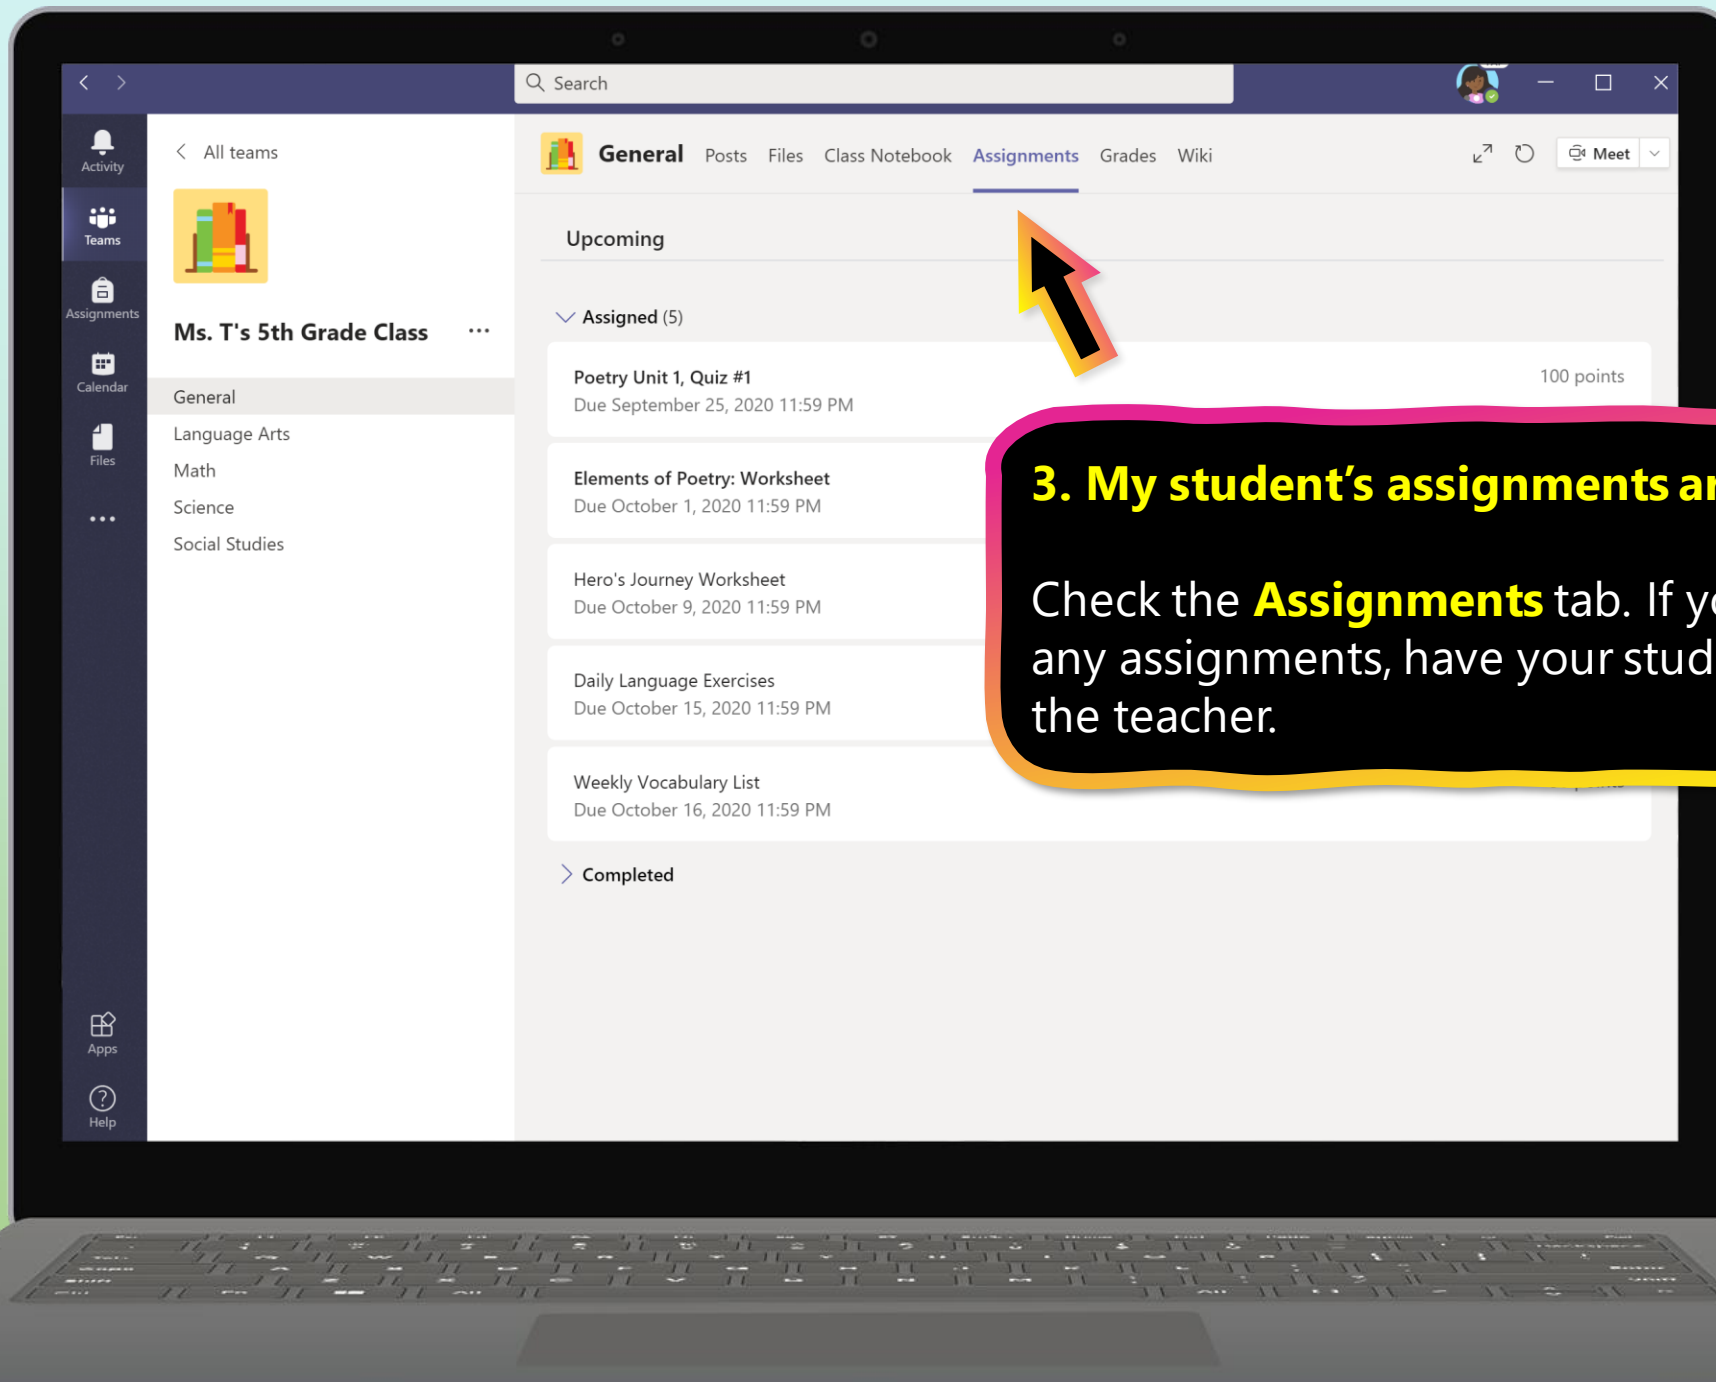

2. I can't find my student's class during set-up.

If you don't see your student's classes after you log in, the teacher may have invited you to join your class team with:

- A join code. From the Teams page, select **Join team** and enter the code.
- A unique link. Ask your student to check their email.

4. My student missed a class— what now?

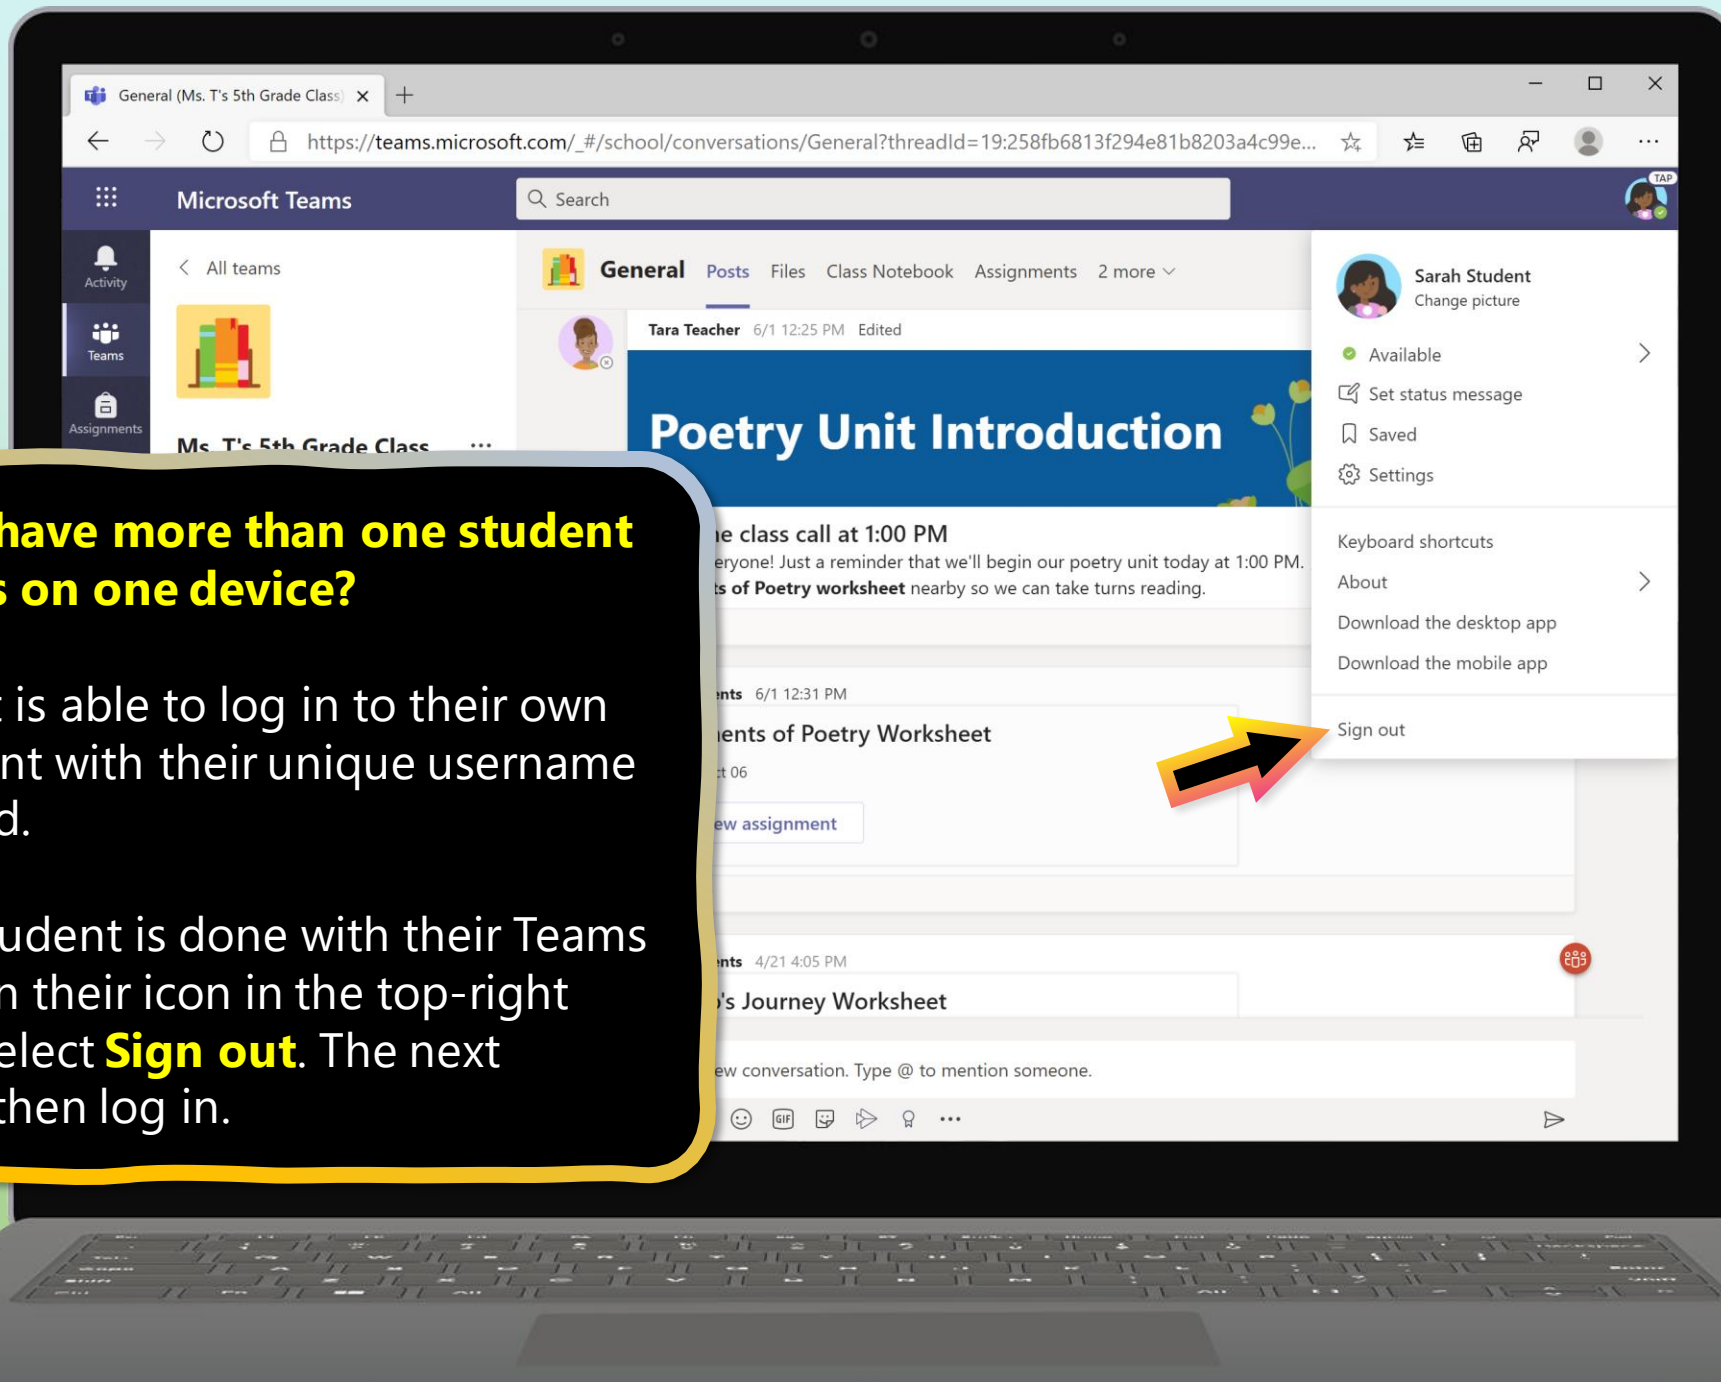

1. Read any new posts in the class team channel.
2. Check for a recording of the class meeting in the team channel and watch the meeting.
3. Check in with the teacher for additional information.

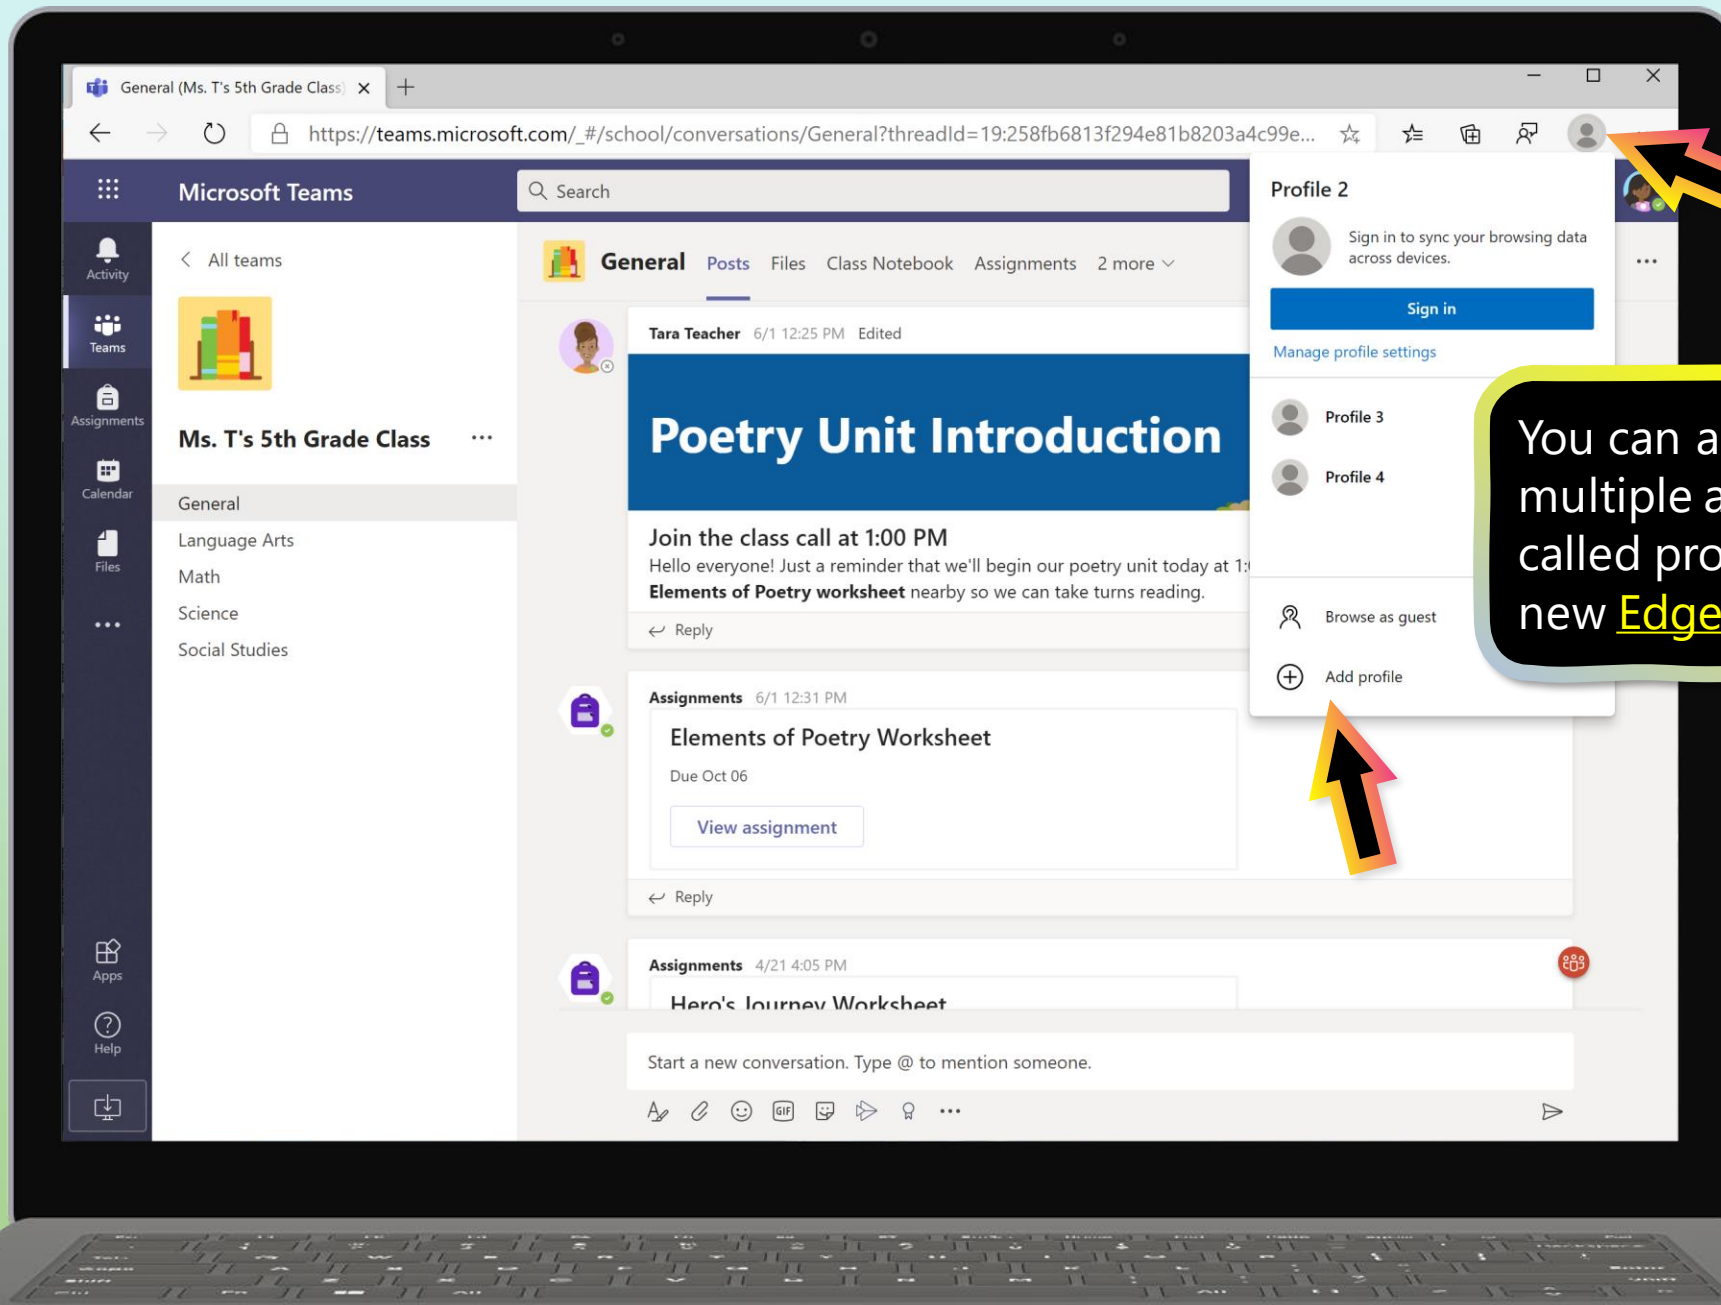

5. What if I have more than one student using Teams on one device?

Each student is able to log in to their own Teams account with their unique username and password.

When one student is done with their Teams work, click on their icon in the top-right corner and select **Sign out**. The next student can then log in.

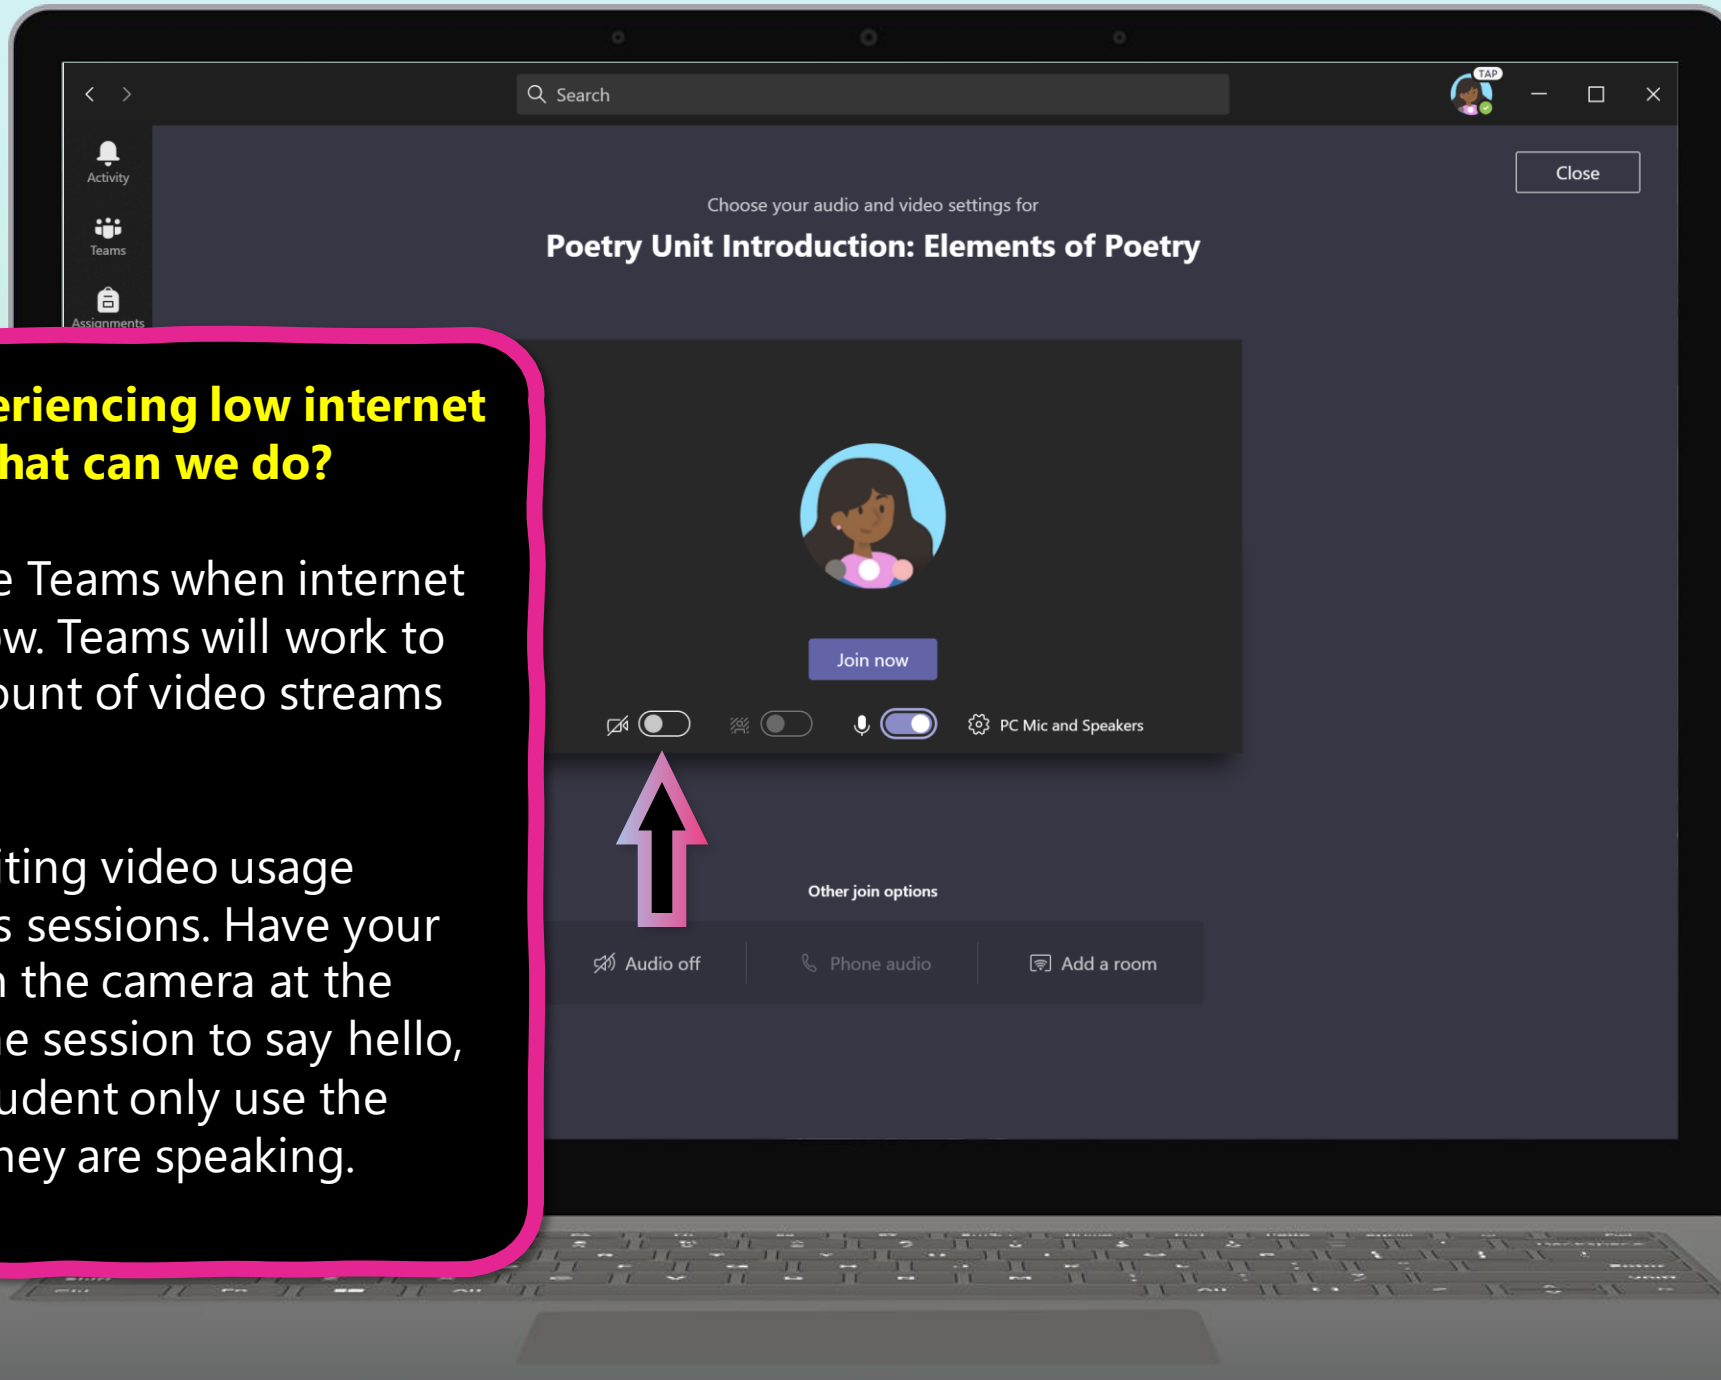

6. We are experiencing low internet bandwidth. What can we do?

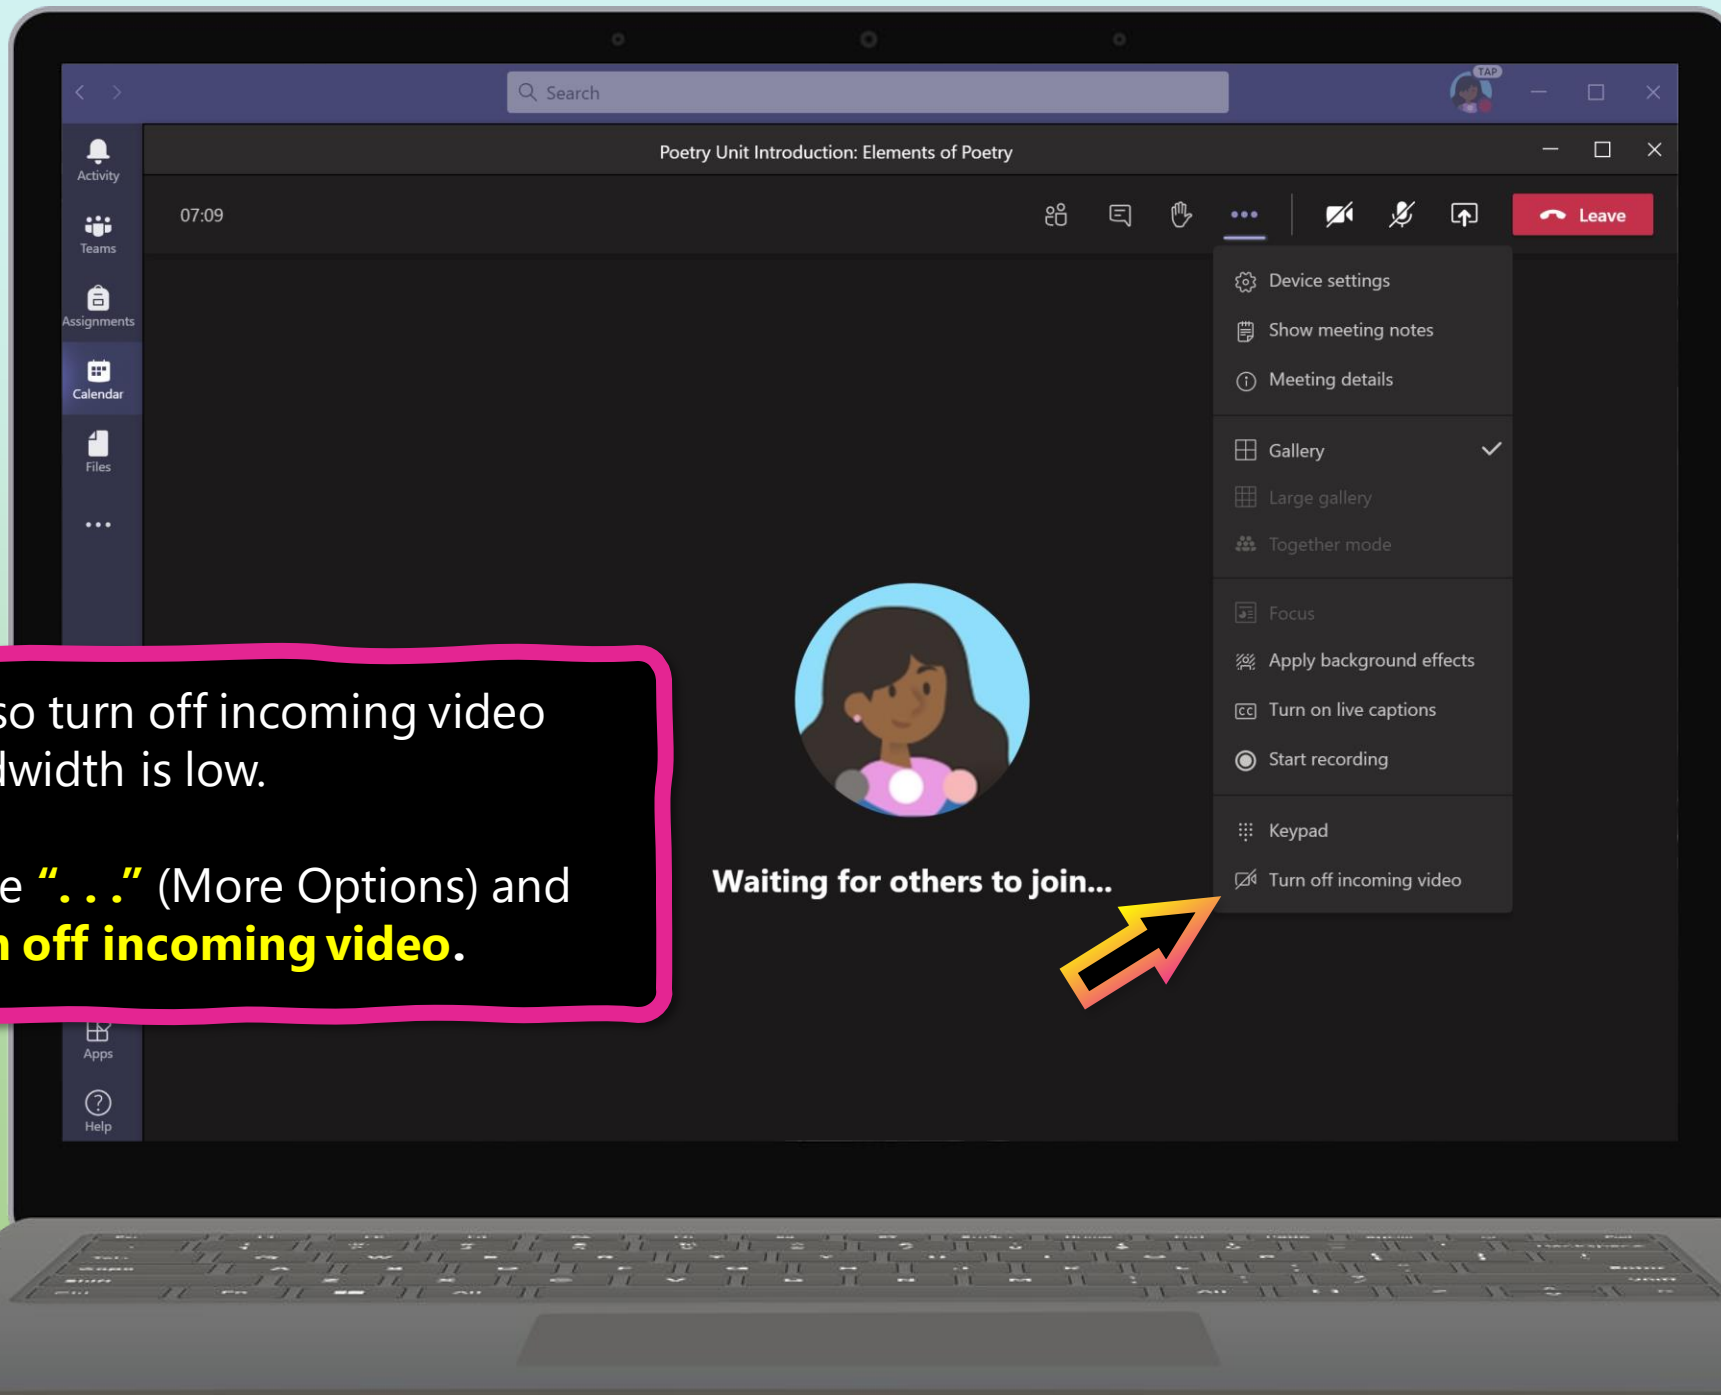

You can still use Teams when internet bandwidth is low. Teams will work to reduce the amount of video streams automatically.

You can try limiting video usage during live class sessions. Have your student turn on the camera at the beginning of the session to say hello, or have your student only use the camera when they are speaking.

You can also turn off incoming video when bandwidth is low.

Click on the "... " (More Options) and select **Turn off incoming video**.

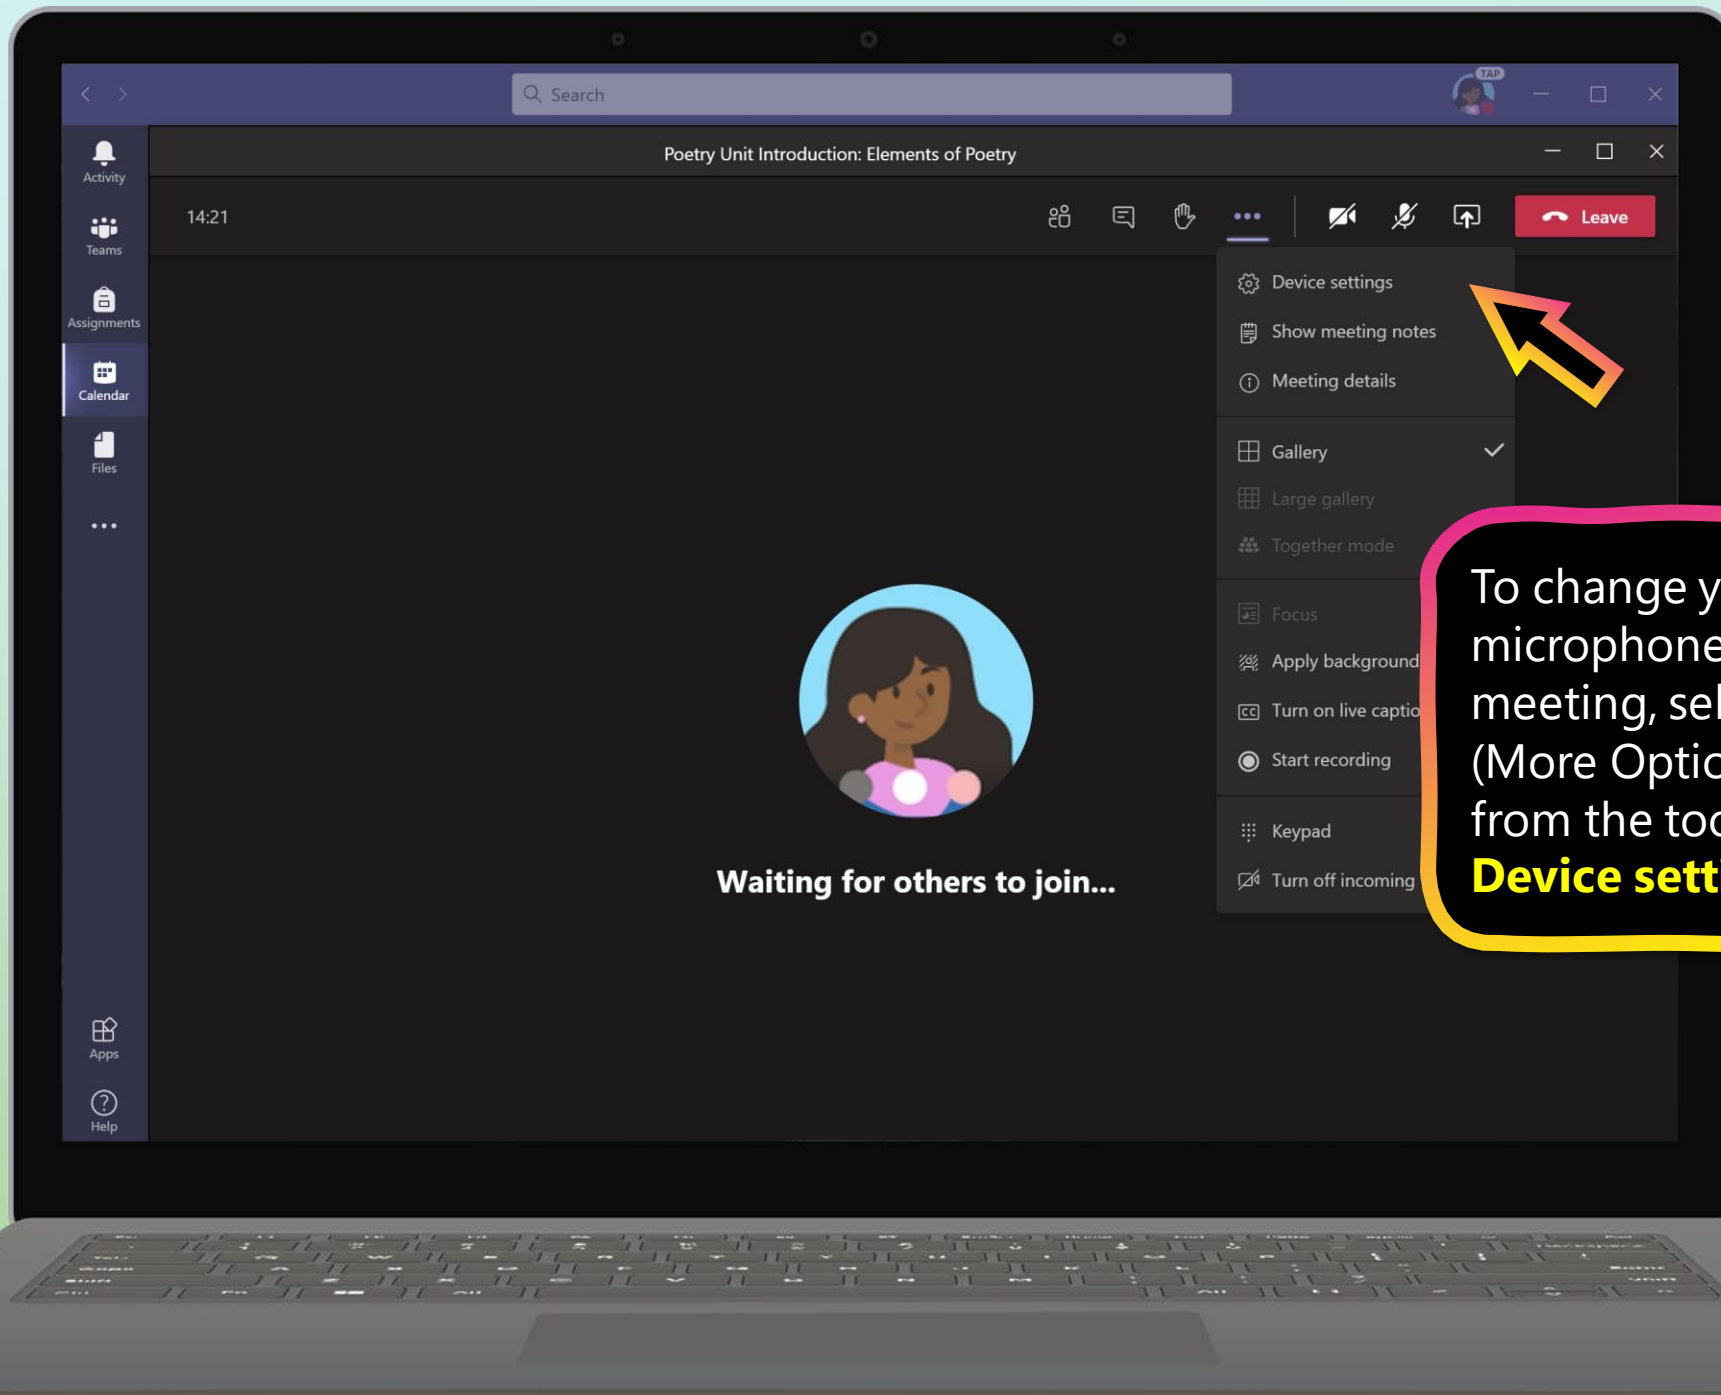

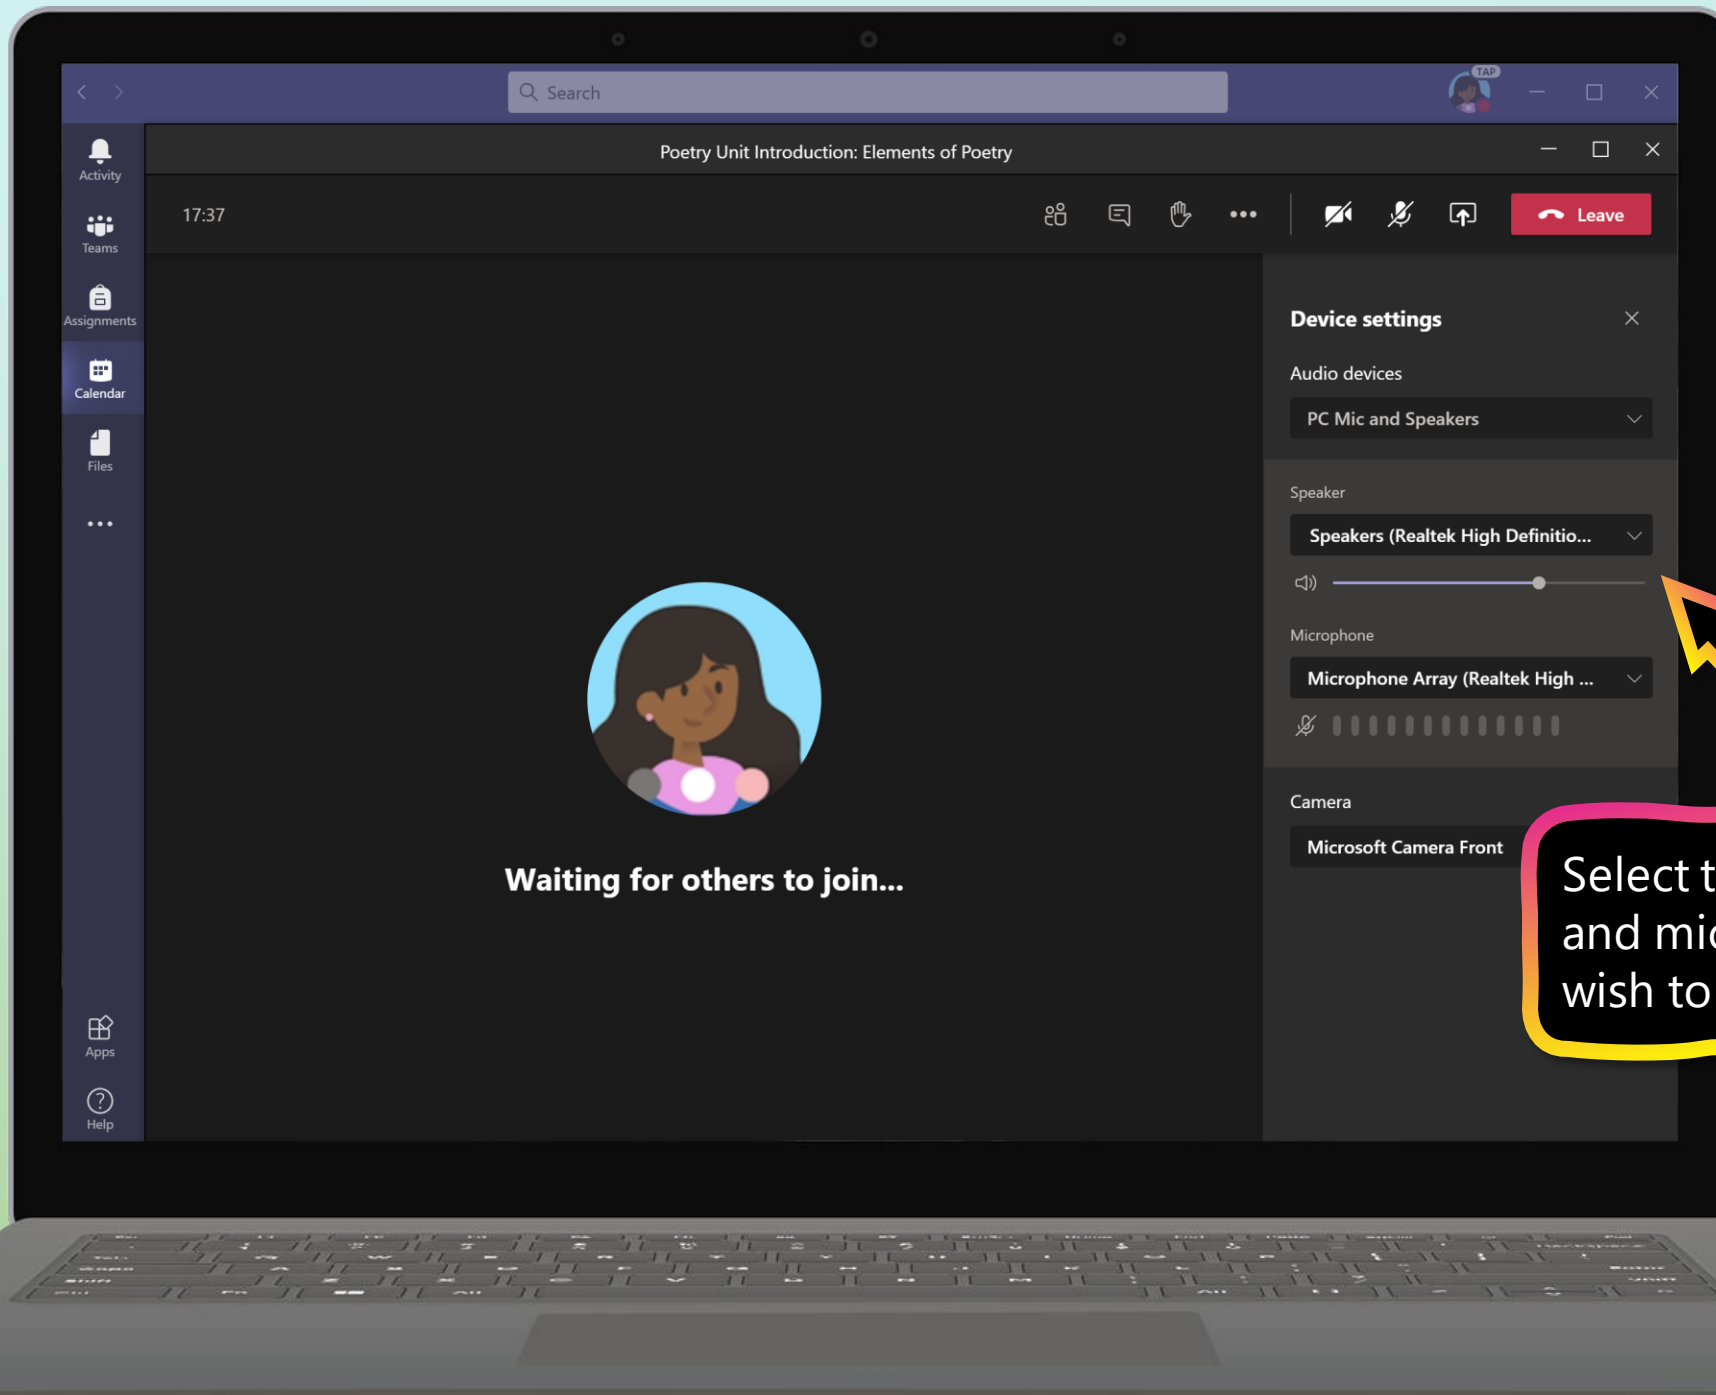

7. Audio troubleshooting: The teacher can't hear my student, or my student can't hear the teacher.

If people in a class meeting can't hear your student, they might be muted or the microphone setting might be incorrect.

Click the microphone icon to turn the mute button on/off.

To change your speaker or microphone settings in a meeting, select the "... " (More Options) button from the toolbar. Click **Device settings**.

Select the speakers and microphone you wish to use.
